

## MICROSOFT TEAMS. DONE RIGHT.

Microsoft Teams with the right mix of Adoption, Governance and Productivity to ensure success.

**MICROSOFT TEAMS IS THE FUTURE OF MODERN COLLABORATION AND COMMUNICATION; DO IT RIGHT WITH A SECURE AND ENTERPRISE READY APPROACH.**

### MICROSOFT TEAMS DONE RIGHT WITH ARINCO

We believe the right governance and controls are critical when deploying Microsoft Teams into an enterprise to enable a secure and productive Teams experience. Arinco's deployment patterns will establish your Microsoft Teams tenant to ensure your critical data and conversations are safe. Our team will work collaboratively with yours, to empower a business unit of your choice with a fully featured Microsoft Teams roll-out that will prime your organization for future success.

### WHY CUSTOMERS USE THE MICROSOFT TEAMS DONE RIGHT ACCELERATOR

This 6-week engagement is relevant if you:

- Want to establish an enterprise-ready framework to enable a wider Teams roll-out
- Are running a Microsoft 365 tenant without strong external and internal identity security controls, well-defined group governance and lifecycle management, or external and internal sharing policies
- Wish to accelerate your adoption of Microsoft Teams, including migrating over from Skype for Business and/or advanced features, such as integration with the Microsoft Bot Framework
- Need assistance across the Microsoft 365 Adoption Framework, Azure B2B Sharing and integrated services such as SharePoint, Planner and Power BI

#### SETUP FOR SUCCESS

Define and configure core Microsoft Teams policies and migration strategies to ensure the platform is enterprise-ready

Ensure fit-for-purpose external and internal sharing policies

Define group governance and lifecycle management processes

A solid Microsoft Teams foundation will provide you with the right platform with which to securely empower your business

#### EMPOWER YOUR BUSINESS

Identify and deploy Microsoft Teams to a business unit; champion Microsoft Teams within your organisation and help shape the on-going user experience

Understand the adoption methodology, collaboration benefits and learn how they can directly improve productivity

Take advantage of Microsoft Teams within an entire business unit to realise the benefits of features like document collaboration and co-authoring

#### REFINE AND OPERATIONALIZE

Secure, monitor and automate your tenant with native tools like Azure AD, SharePoint Online, Access Reviews and Conditional Access.

Prepare for your wider Microsoft Teams roll-out with a success story to accelerate adoption

Govern, manage and operate Microsoft Teams the right way, so you can accelerate a wider rollout built on a strong foundation

Arinco believe that Intelligence, whether it be Artificial, Augmented or Human - **is the core to the success of any business.**
