

# Modern Work Done Right™ Microsoft 365 Copilot Accelerator

## INTEGRATE MICROSOFT 365 INTO THE APPS YOU USE EVERY DAY, ENABLING YOU TO PRIORITISE IMPORTANT WORK

Microsoft 365 Copilot is an AI-powered productivity tool that integrates with Microsoft 365 apps like Word, Excel, PowerPoint, Outlook, and Teams. Utilising the power of large language models and AI search services to provide real-time intelligent assistance, helping users enhance their productivity and creativity.

Arinco's Copilot Accelerator enables you to seamlessly integrate Microsoft Copilot within your business operations to increase employee productivity, enhance collaboration and improve operational efficiency. By collating your internal data using cognitive services and engineering effective prompts, we help you to design and deploy Copilot in the most impactful way for your organisation.

### Why customers use Arinco's Microsoft 365 Copilot Accelerator:

This engagement is relevant if you want to:

- Introduce more natural interfaces with technology for your employees
- Integrate intelligent collaboration into your organisation
- Demonstrate and measure Copilot benefits in your business
- Educate your business on how to prepare for AI usage
- Realise productivity gains using modern AI services

#### DESIGN & EVALUATE

Understand how Copilot uses data to empower employee productivity, while identifying the ROI.

Assessment Report and Recommendations

#### DEPLOY & INTEGRATE

Enable Copilot in a scalable and structured manner, deploying a baseline configuration in Microsoft 365.

Microsoft 365 Configuration & Plugin Activation

#### ROLLOUT & REPORT

Build a community of practice to drive Copilot knowledge, monitor and report on usage and measure ROI.
