

Azure Done Right™

Optimisation Accelerator

REVIEW, OPTIMISE AND REDUCE UNNECESSARY AZURE COSTS.

Having worked with organisations of all sizes, Arinco's consultants have a wealth of knowledge in setting the right Azure foundations with optimised environments so that customers can ensure they only pay for what they require.

Utilising our simple and straight forward Cost Optimisation Accelerator, we will provide an end-to-end analysis of your environment and provide practical and impactful changes that will optimise your licensing, services, and cloud costs.

Why customers use Arinco's Optimisation Accelerator

This 2-4 week engagement is relevant for you if you:

- Perform a health check on your Azure expenditure and gain insights into cloud costs
- Review security, or framework alignment and selectively remediate
- Align to right-sizing to reduce unnecessary cloud costs
- Align your environment to well Architected Framework
- Review your secure score and get actionable steps to increase your posture
- Enable your team to monitor and reduce costs on an on-going basis

ASSESS

Assess your Azure infrastructure, including; Azure Cost Management, Azure Advisor, licensing settings, right Sizing Resources, network traffic, log ingestion settings, stale resources, budget settings, storage tiering, tagging

DOCUMENT

Provide specific reporting containing items in which costs can be reduced and projected savings amount, and effort required to implement changes.

EXECUTE

Plan and roadmap for changes to be made including logging change requests and working with your team to outline change processes.

Key Deliverables: Cost analysis, right sizing, Well Architected Framework Review, Secure Score review, health check. Analysis and report (deliverable)
